About Me

I'm a front-end developer with 6+ years of hands-on experience building responsive, cross-browser web applications using HTML, CSS, JavaScript, and React. I specialize in clean semantic markup, scalable CSS (BEM, Tailwind), and performance-optimized front-end architecture.

I've delivered projects across industries including iGaming, e-commerce, and NGOs – both from scratch and by improving legacy codebases. I'm also experienced in CMS platforms (WordPress, Webflow, Shopify) and love turning designs into functional, pixel-perfect interfaces.

I'm currently focused on building highly performant, user-friendly front-ends with modern JavaScript frameworks.

Languages

- Armenian (Native)
- Russian (C1)
- English (B2)

Experience

Senior UI Developer

ARCTX SOLUTION LLC

08/2021 - 04/2025

- Built and maintained multiple e-gaming websites, ensuring high availability and responsive user experience across platforms.
- Developed and customized reusable UI components using HTML5, SCSS, and vanilla JS.
- Integrated third-party platforms and ensured seamless cross-platform compatibility.
- Created internal automation tools to support QA and deployment pipelines.
- Improved performance by 25% via asset optimization and code splitting.
- Mentored junior developers, reviewed code, and upheld best practices.

HTML/CSS Developer

ADJARABET.AM

04/2020 - 12/2022

- Developed HTML5 banners and email templates, ensuring responsiveness and cross-platform compatibility.
- Worked closely with marketing to deliver visual assets on tight timelines.

IT Specialist

"ENVIRONMENT AND HEALTH" NGO

08/2020 - 06/2021

- Built educational HTML5 games on environmental topics using Canvas and JavaScript (games.envhealth.am).
- Supported the NGO's main website (envhealth.am), performed content updates and bug fixes.

Payment System Monitoring Specialist

ADJARABET.AM

04/2020 - 12/2022

- Checking all (online and offline) withdrawal systems that are configured on the adjarabet.am website
- Checking all (online and offline) deposit systems that are configured on the adjarabet.am website
- Error detection and reporting

IT Specialist

INSTITUTE OF ARCHEOLOGY AND
ETHNOGRAPHY NAS

05/2021 - 08/2021

- Organized and categorized a digital archive.
- Supported the development of a digital library search engine.
- Helped plan and build the institute's website.

● Web Development Courses <u>Microsoft Innovation Center</u>	08/2015 – 11/2015
● Bachelor Degree Diploma <u>Yerevan State University</u>	2008 - 2014

Portfolio

- **VK Clean Hands – Mobile Cleaning Services Website**
A marketing website for a mobile car cleaning service in Los Angeles. Includes multilingual support (EN/ES/RU), responsive design, instant quote calculator, testimonials carousel, and direct lead delivery via Telegram. Optimized for mobile-first experience and conversion-driven UI. [View Project](#)
- **Online Photo Editing Service**
Multilingual web app for photo editing with auto language detection (EN/RU/AM/ES), order management, image previews via canvas, and full backend API integration. Features responsive design, dark/light mode, and secure session-based workflows for order handling. [View Project](#)
- **Media Finder – Chrome Extension**
A browser extension for discovering and downloading media content from webpages. Built with modular vanilla JS, it supports filtering, multilingual UI, theme switching, batch downloads, and smart caching. Enables users to locate and save images, videos, and audio files from complex DOM structures, including embedded content. [View Project](#)
- **Other Projects (Confidential)**
Worked on several commercial and internal projects under NDA, involving custom CMS development, data visualization dashboards, internal tooling, and UX-heavy admin panels for international clients in fintech, logistics, and healthcare sectors.
